

### Report on Lecture 11 of Alumni Lecture Series

The Department of Chemistry organized its **Eleventh lecture** in the Alumni Lecture Series on **March 24, 2023**. This lecture was delivered by **Mr. Vinay Pande** who was the alumnus of M.Sc. Chemistry 1984 batch. He was the former Headmaster of The Lawrence School, Sanwar, Himachal Pradesh and currently is the Freelance Educational Motivator at Dehradun. Before commencement of the lecture Mr. Pande was presented token of appreciation by **Prof. Abhinav Kumar** and **Dr. Indu Saxena** introduced him to the audience highlighting his achievements and credentials.

Mr. Pande In his lecture on "**Theatre in Education-Breaking the Fourth Wall**" shared his experiences during his stints at The Lawrence School, Sanwar and conveyed to the audience that how his skills in drama transits into his teaching skills. He said that a good teacher should be a good actor as well. Mere good subject knowledge is not enough to make teaching and learning effective and enjoyable. He also gave a wide overview about the role of theatre in education and broadly divided the impact of theatre on teaching into ten broad categories and each category was an integral part of theatre. He related and emphasized how implementing each category can improve the teaching skills. He also discussed about the module which he developed in past years which assist the teachers to use dramatic skills to make the class room environment more conducive to teaching that eventually results in making the learning interesting and meaningful.

**Prof. Anil Mishra**, Head, Department of Chemistry at the end said that such novel initiatives of introducing such theatre modules in teaching for undergraduate and postgraduate classes will improve the understanding of the subject amongst the students. Also, it will significantly enhance the creative thinking amongst the teachers and students that will uplift level of research in the Department and that in spite of being in the field of Chemistry, Mr. Pandey has achieved great laurels as an Educational Motivator. At the end, **Dr. Ashok Kumar Singh** proposed vote of thanks.

The program was attended by all the faculty members and research scholars of the department of Chemistry. Some faculty members from the Department of Physics of the University and IT College were also present.
